

SRI LANKA MEDICAL COUNCIL

GENERAL NOTICE

Submission of Applications for Temporary Registration

The Sri Lanka Medical Council (SLMC) wishes to inform all applicants and relevant institutions that applications for temporary registration shall be submitted in accordance with all requirements prescribed by the SLMC.

Applicants are required to submit a **duly completed application together with all required supporting documents**, including the necessary **recommendation/approval of the Director General of Health Services (DGHS)**, where applicable.

Applicants and/or the relevant institutions are advised to ensure that the complete application, together with the required DGHS recommendation/approval, is submitted to the SLMC **at least two (02) months prior to the intended commencement of the event, training or programme**. This is necessary to allow sufficient time for the required evaluation and to obtain approval from the **Temporary Registration Committee and the Council**.

Applications submitted sufficiently in advance will be considered by the relevant **Temporary Registration Committee, where applicable, and thereafter by the Council**, in accordance with the applicable procedures **and the decision conveyed to the applicant before the scheduled event**.

Please note that where the required documents, recommendations and approvals are **not submitted within the prescribed timeframe (2 months prior to the event)**, the SLMC shall not be in a position to process the application. In such circumstances, **temporary registration/approval will not be granted and the application will be returned to the applicant**.

Applicants and relevant institutions are therefore strongly advised to ensure that all applications are complete and submitted within the stipulated timeframe to avoid delays or inability to process the application.
